# THE OBAMA BIRTH CERTIFICATE HOAX

Once again, the internet is being spammed with emails and blog posts trying to claim that Barack Obama is not a natural born citizen and therefore ineligible to be President. Neil Abercrombie's promise to settle the matter followed by his refusal/inability to do so has only made matters worse. This is a needless distraction from the economy, the wars, and Israel's continued subversion of our government to their own ends. Why are we still wasting time with this?

I think that the reason so many people buy into this nonsense is the total disappointment many people who supported Obama are feeling as he fails everyone of his campaign promises and seems intent on being Bush-3. Currently, Obama's polls are in Bush country! Obama's unwillingness to stand up to Wall Street or Israel makes him seem useless as a President, given that Wall Street and Israel are the two biggest threats to America right now.

The birthers have been caught engaging in fraud; something which would not be necessary, indeed is highly dangerous to try, if the truth were really on their side.

There are two phony birth certificates in play, both claiming to prove that Obama was born in Kenya.

[Click for full size image](#)

The above is already acknowledged to be a fake, mostly because genuine birth certificates from the colony of Kenya included the baby's footprint on them.

The other "proof" is the following birth certificate.

[Click for full size image](#)

The above purports to be a 1964 certified copy of the original 1961 birth certificate. Whether Kenya would spend the resources to recopy all the British birth certificates is open to doubt, but there are two other aspects of this certificate which call its authenticity into doubt.

Let us take a closer look at the document.

**CERTIFIED COPY OF REGISTRATION OF BIRTH**

18-10-1964

47,044

MOMBASA

[Click for full size image](#)

Note that the document number is given as 47,044. Obama is a 47 year old chief executive and 44th president of the United States. A rather amazing coincidence.

But the really damning part of the document is this. The location of birth is given as Mombasa. But [Mombasa was part of the state of Zanzibar until December of 1963. This certificate is dated February 1964 and carries the name "Republic of Kenya", Kenya did not formally declare itself a Republic until December of 1964.](#)

EF Lavender (the name given as Registrar) is a laundry detergent.

The certificate uses the label "Christian name" in a nation that is predominantly Muslim.

There were no "provinces" in Kenya until 1970. Prior to that they were called "Districts".

Obama's father would have been either 24 or maybe 25 when Obama was born. The certificate gives his age as 26.

**BREAKING! ORIGINAL TEMPLATE DOCUMENT FOR THE FAKE IS FOUND!**

**CERTIFIED COPY OF REGISTRATION OF BIRTH**

18-10-1964

47,044

MOMBASA

[Click for larger image](#)

The above is a certified copy of birth registration from Australia! This appears to be the same document as used for the purported Kenyan Birth Certificate, and while British colonies might be expected to use identical forms, Kenya was independent in 1964 and not likely to be using British regulatory paperwork.

Obama is a rather amazing man to have so many birth certificates!

[Click for larger image](#)

The hoaxers have claimed that this certificate provided by the Obama campaign is a fake, but have yet to produce any evidence to back that claim up. Their approach, straight out of the Napoleonic code, is to make continual accusations and demand that the accused prove their innocence. They hope that simply by repeating a claim often enough, useful idiots will come to believe it. But here in the United States, we follow the principle that the ACCUSER must prove the accused guilty, beyond a reasonable doubt. What that means is that when the birthers accuse Barack Obama of fraud, it is they who are required to provide proof *beyond a reasonable doubt*. Otherwise, we as citizens are obligated to ignore such baseless accusations, and certainly refuse to forward them along to everyone in our mailing lists (as these spammed emails always insist we must do).

There is more evidence that backs up the Birth Certificate. Hawaii had until just recently two major newspapers, the Honolulu Advertiser and the Star Bulletin. BOTH newspapers included birth announcements, and pages found in the archives of BOTH newspapers record the August 4th, 1961 birth of Barack Obama.

The Honolulu Advertiser The Star Bulletin

Now, the birthers will scream that these are also fakes; that they are part of this grand conspiracy by Obama's parents to smuggle a newborn baby from Kenya into Honolulu to obtain a birth certificate and birth announcements. But what is lacking in their story is MOTIVE. It's not like Obama's parents knew back then that Barack would go into politics, and needed to be "Natural Born." Why bother with such a deception, which includes a very risky flight half way around the world with a newborn baby?

Finally, the Birthers hoisted with their own petard with a [story carried by World Net Daily](#), that included the claim *"WND has learned that Hawaii's Gov. Linda Lingle has placed the candidate's birth certificate under seal and instructed the state's Department of Health to make sure no one in the press obtains access to the original document under any circumstances."*

This prompted the following statement from the office of Governor Lingle.

Aloha,

Thank you for emailing Governor Linda Lingle's office. A recent article in WorldNetDaily.com (October 26, 2008) claiming that Hawaii Governor Linda Lingle sealed Sen. Barack Obama's birth certificate is false.

Under Hawaii's state law (Hawaii Revised Statutes §338-18), copies of vital records may only be released to those who have a tangible relationship to the person whose record is being sought. Neither the Governor's office, nor any other office in the State of Hawai'i, can provide information concerning birth certificates, or produce birth certificates, to anyone except those who are listed in the law governing vital statistics records.

Vital statistics records, such as birth certificates, are protected by strict confidentiality requirements. Specifically, pursuant to section 338-18, Hawaii Revised Statutes (HRS), the Department of Health, which maintains these records, may not allow the inspection of a birth certificate, or issue a certified copy of a birth certificate, or disclose any information contained in a birth certificate, unless it is satisfied that the applicant has a direct and tangible interest in the record:

(a) To protect the integrity of vital statistics records, to ensure their proper use, and to ensure the efficient and proper administration of the vital statistics system, it shall be unlawful for any person to permit inspection of, or to disclose information contained in vital statistics records, or to copy or issue a copy of all or part of any such record, except as authorized by this part or by rules adopted by the department of health.

(b) The department shall not permit inspection of public health statistics records, or issue a certified copy of any such record or part thereof, unless it is satisfied that the applicant has a direct and tangible interest in the record. The following persons shall be considered to have a direct and tangible interest in a public health statistics record:

- (1) The registrant;
- (2) The spouse of the registrant;
- (3) A parent of the registrant;
- (4) A descendant of the registrant;
- (5) A person having a common ancestor with the registrant;
- (6) A legal guardian of the registrant;
- (7) A person or agency acting on behalf of the registrant;

- (8) A personal representative of the registrant's estate;
- (9) A person whose right to inspect or obtain a certified copy of the record is established by an order of a court of competent jurisdiction;
- (10) Adoptive parents who have filed a petition for adoption and who need to determine the death of one or more of the prospective adopted child's natural or legal parents;
- (11) A person who needs to determine the marital status of a former spouse in order to determine the payment of alimony;
- (12) A person who needs to determine the death of a nonrelated co-owner of property purchased under a joint tenancy agreement; and
- (13) A person who needs a death certificate for the determination of payments under a credit insurance policy.

Mahalo,

Office of Governor Lingle

Governor Lingle's office then followed up with ...

"The state registrar of the Department of Health's vital statistics record office can verify Sen. Barack Obama's birth certificate."

It should be pointed out that contrary to the claims made in some of the spammed emails, Former Governor Linda Lingle is a REPUBLICAN, not a Democrat. It is difficult to imagine Lingle protecting Obama to the detriment of her own party's candidate.

There is, in short, no evidence to support these allegations, and ample evidence to cast doubt on their veracity.

If there were anything to this claim that Obama is not legally entitled to be President, don't you think Hillary would have used it to win the nomination, or John McCain to win the election, or Joe Biden even now to become President?

Attention has been called to the fact that the original PDF of this certificate shows different components of the image in different layers, and that this is claimed to be evidence of forgery. Setting aside the obvious question of why a forger would not collapse the image down to a single plane in the first place, the reality is that when a scanned bitmap image is brought into Adobe Illustrator, it is "vectorized" and the different vector elements

assigned into separate layers by the Software. This is the *normal* mode of operation by Illustrator when dealing with scanned images and is not evidence of nefarious activity in and of itself.

**§338-18 Disclosure of records.** (a) To protect the integrity of vital statistics records, to ensure their proper use, and to ensure the efficient and proper administration of the vital statistics system, it shall be unlawful for any person to permit inspection of, or to disclose information contained in vital statistics records, or to copy or issue a copy of all or part of any such record, except as authorized by this part or by rules adopted by the department of health.

(b) The department shall not permit inspection of public health statistics records, or issue a certified copy of any such record or part thereof, unless it is satisfied that the applicant has a direct and tangible interest in the record. The following persons shall be considered to have a direct and tangible interest in a public health statistics record:

- (1) The registrant;
- (2) The spouse of the registrant;
- (3) A parent of the registrant;
- (4) A descendant of the registrant;
- (5) A person having a common ancestor with the registrant;
- (6) A legal guardian of the registrant;
- (7) A person or agency acting on behalf of the registrant;
- (8) A personal representative of the registrant's estate;
- (9) A person whose right to inspect or obtain a certified copy of the record is established by an order of a court of competent jurisdiction;
- (10) Adoptive parents who have filed a petition for adoption and who need to determine the death of one or more of the prospective adopted child's natural or legal parents;
- (11) A person who needs to determine the marital status of a former spouse in order to determine the payment of alimony;
- (12) A person who needs to determine the death of a nonrelated co-owner of property purchased under a joint tenancy agreement; and
- (13) A person who needs a death certificate for the determination of payments under a credit insurance policy.

(c) The department may permit the use [of] the data contained in public health statistical records for research purposes only, but no identifying use thereof shall be made.

(d) Index data consisting of name and sex of the registrant, type of vital event, and such other data as the director may authorize shall be made available to the public.

(e) The department may permit persons working on genealogy projects access to microfilm or other copies of vital records of events that occurred more than seventy-five years prior to the current year.

(f) Subject to this section, the department may direct its local agents to make a return upon filing of birth, death, and fetal death certificates with them, of certain data shown to federal, state,

territorial, county, or municipal agencies. Payment by these agencies for these services may be made as the department shall direct.

(g) The department shall not issue a verification in lieu of a certified copy of any such record, or any part thereof, unless it is satisfied that the applicant requesting a verification is:

- (1) A person who has a direct and tangible interest in the record but requests a verification in lieu of a certified copy;
- (2) A governmental agency that, for a legitimate government purpose, maintains and needs to update official lists of persons in the ordinary course of the agency's activities. Notwithstanding other provisions of this section, upon request from a governmental agency of the State of Hawaii or its political subdivisions, the department may further disclose to that governmental agency the date of the vital event that has been verified;
- (3) A governmental agency, or private, social, or educational agency or organization that seeks confirmation of a certified copy of any such record submitted in support of or information provided about a vital event relating to any such record and contained in an official application made in the ordinary course of the agency's or organization's activities by an individual seeking employment with, entrance to, or the services or products of the agency or organization;
- (4) A private or government attorney who seeks to confirm information about a vital event relating to any such record that was acquired during the course of or for purposes of legal proceedings; or
- (5) An individual employed, endorsed, or sponsored by a governmental agency, or private, social, or educational agency or organization who seeks to confirm information about a vital event relating to preparation of reports or publications by the agency or organization for research or educational purposes.
